

Tate Testimonial

Operations Manager in Tate Dorking - Angelina

Background:

I have worked passionately within the recruitment industry for 15 years, working up from Consultant to Manager. Over the last seven years, I was involved in the set up and running of two businesses within recruitment. I then wanted to return to recruitment within a corporate setting and the only company I wanted to work for was Tate.

A day in the life ... :

A normal day would begin by discussing the day ahead with my team, and for all of us to set personal targets of what we plan to achieve. My day is a mix of sales, to build relationships with clients and discuss how we can add value to their business, interview any suitable candidates for current or future roles, catching up on emails and supporting my team in achieving their targets. Before I know it is the end of the day, and it feels like there are never enough hours!

Challenges and Success:

The challenges for us at Dorking are to increase our business levels in our geographical area and ensure all clients understand our unique selling point - the Tate Watertight Guarantee - that is proving to be a success.

Why I'm With Tate: I am at Tate because I believe that they are the best recruitment agency out there. For me the integrity of a recruitment consultancy was of high importance for my own credibility within the industry. I am given complete support across the business. I am enabled to work autonomously and my knowledge and experience are always taken into account. I couldn't ask for a better team to work with at Dorking as we are all highly committed to being the best, by offering an exceptional service at all times.
