

Tate Testimonial

Permanent Consultant in Tate Southampton - Zoe

Background:

Before I joined Tate I worked in Estate Agency for 4 years, working my way up from Trainee Negotiator to Branch Manager. Recruitment was always something that interested me.

Having an excellent experience temping with Tate previously, they were the first people I contacted when I started looking at a career within the industry!

A day in the life ... :

No day is ever the same! With the many phone calls, client visits and candidate registrations, the day starts and finishes in a whirlwind of activity! But you know what, I wouldn't have it any other way. From when I step foot in the office it's busy and challenging, and sometimes you just don't think there are enough hours in the day, but to change that and have an easy mundane role is something I never want! Ever!

Challenges and Success:

We are getting out there, changing the way we work, and moving with the times to combat the current market and even though it's been hard work, we are seeing positive results and getting fantastic feedback from clients and candidates!

Why I'm With Tate:

I wake up every day and can honestly say, "I love my job."
